RESOURCES

01. Success Stories

CRM System Development For Leading Truck Manufacturer

`Automotive` `CRM`

Project Information

➤ Utilizing know-how in the automotive industry (from truck sales process to customer service), CodLUCK built the centralized CRM system and customer channel that helps the client manage data from existing sources and communicate with end customers, enhancing customer satisfaction.

➤ **Project size**: 150 man-month

➤ **Duration**: 8 months

Technology Stack

`Python` `PostgreSQL` `Flutter` `MySQL` `PHP`
`Odoo`

CRM System

Mobile application

B2C Website Implementation For Korea's Leading Home Appliance Brand

`E-commerce`

Project Information

➤ CodLUCK analyzed and built functions suitable for the customer's business model such as product catalog, user registration, shopping basket, price comparison, payment and checkout. We proposed a solution to integrate payment gateways of VNPay and Momo into the customer's existing website.

➤ **Project size**: 9 man-month

➤ **Duration**: 3 months

Technology Stack

`WordPress` `WooCommerce` `Payment gateway integration`
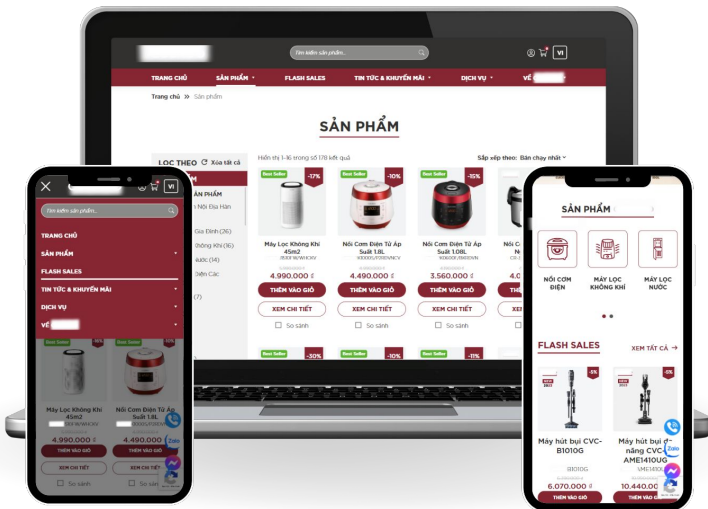

## International Medical Website Attracts The Foreign Patients

`Healthcare`

Project Information

➤ CodLUCK designed and developed an international high-quality website meeting all Clients' requirements and delivered timely (urgent project). Our team helped the Clients design a website specialized for foreign customers with a focus on action and providing information.

➤ **Project size**: 10 man-month

➤ **Duration**: 2 months

Technology Stack

`PHP` `WordPress`
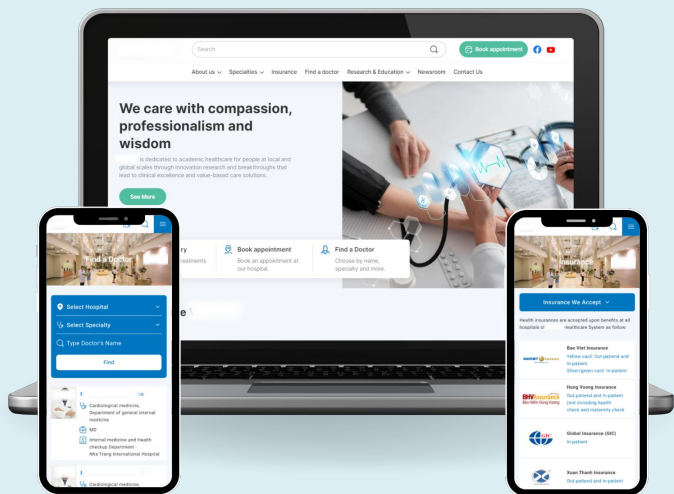

## PO & Forecast Management System For A Factory

`Manufacture`

About The System

・Automated statistics and unified reporting.

・Easy monthly report export.

・Flexible and customizable system for the Cient's needs

➤ **Project size**: 10 man-month

➤ **Duration**: 3 months

Technology Stack

`NodeJS` `ReactJS`

RESOURCES

01. Success Stories

Exhibition Simulation

`3D` `AR/VR`

Project Information

➤ Creating the 3D booth and 3D model of the products from the actual booth of the client. Users can experience immersive functions such as moving in 3D space, teleporting, and getting into a car, etc.

➤ **Project size**: 15 man-month

➤ **Duration**: 4 months

Technology Stack

`Unity` `Blender` `XR integration toolkit`

`Vive pro 2`

AI (ChatGPT) Powered Marketing Platform

`Marketing` `Artificial Intelligence`

Project Information

➤ We built the system utilizing OpenAI's service to assist the client in automatically generating content with provided templates. The data formats that can be referenced include PDF, CSV, DOC, etc. We developed this system as a microservice - highly flexible and capable of integrating with client's existing platforms.

➤ **Project size**: 10 man-month

➤ **Duration**: 2 months

Technology Stack

`Python` `NodeJS` `ReactJS` `PHP Laravel` `ChatGPT (OpenAI API)`

ESG Management System

`Retail` `Low code`

Project Information

➤ The Client wanted to create a performance tracking system (monthly consumed water, electricity and CO_2, etc.) of about 166 branches all over Japan, against KPI targets for their ESG. CodLUCK used Pleasanter (a low-code platform made in Japan) to implement a IT system for tracking and report ESG KPIs (through charts, Excel, CSV, etc.), helped deploy time 40% faster than traditional web systems.

➤ **Project size**: 15 man-month

➤ **Duration**: 4 months

Technology Stack

`Pleasanter` `SheetJS` `ChatJS`

Edo Period Metaverse World

`Blockchain` `NFT` `Metaverse`

Project Information

➤ CodLUCK team built metaverse world in the simulation of Edo Period of Japan that includes: NFT system (Polygon network), marketplace (buy & sell NFTs), metaverse web system, 3D models, etc.

➤ **Project size**: 10 man-month

➤ **Duration**: 3 months

Technology Stack

`Unity` `NodeJS` `ReactJS` `Solidity`

RESOURCES

02. Company Activities

Internal Training Program / Seminar

➤ Based on the corporate core value of **HUMAN**, CodLUCK's members are developed according to their ability and dedication. We have been working on internal training programs. The policy of coaching and mentoring are operated scientifically and seriously.

➤ Internal seminars are also held regularly each month. Themes include new technologies such as AI, blockchain, low-code as well as various issues of a project.

➤ The goal is to provide useful information to all CodLUCK members.

Company Trip

CodLUCK company trip is not only strengthens teamwork, but also provides a great opportunity for employees to relax and to get to know each other better.
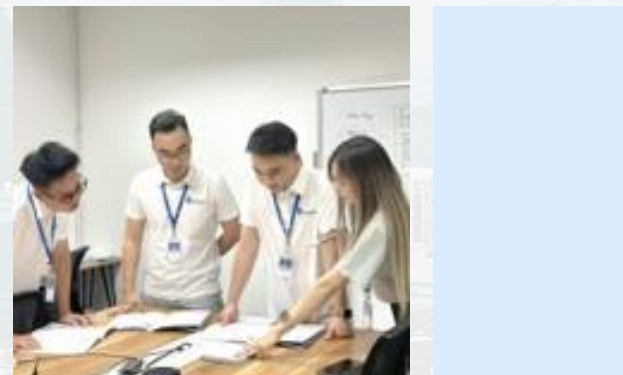

JDXP Alliance
